

MAN PrimeServ Academies

MAN PrimeServ

Located in
Denmark

MAN PrimeServ Academies

Your staff can pick up the skills and knowledge they need to help you create a competitive edge in your industry.

Know what we know

Get the relevant up to date knowledge that reflects the latest developments from our research, service letters, regulations, and feedback from field service engineers.

Real world focus

Participants work on original engines, fully functional diesel GenSets, and simulators with real-life exercises in the operation, maintenance, and troubleshooting of equipment from the MAN Energy Solutions product portfolio.

ENTRANCE

The genuine MAN training advantage

Access experts knowledge

**Training is about becoming stronger as a company.
Your people are your biggest asset – the better they
perform, the more your business thrives.**

**Our courses are designed for maximum performance
impact. Take advantage of our academy instructors
in one of our courses in our Danish academies, or
sign up for our eLearning programs.**

If you have special training needs in regards to
your particular equipment, please feel free to
contact the MAN PrimeServ Academy
specialised in training within that line of
equipment.

MAN PrimeServ courses offered in Frederikshavn Medium and high speed four-stroke

The MAN PrimeServ Academy network offers courses in Frederikshavn covering the complete propulsion system ranging from gearbox and propeller to remote control systems such as

- MAN Alpha CP Propeller
- MAN Alpha FP Propeller
- Alpatronic 2000-3000
- SaCosOne

Upon request we are able to provide a range of courses all living up to the high standard of our certified courses and instructors.

MAN PrimeServ Academy Holeby Medium speed four-stroke

The academy in Holeby is the competence centre for small-bore mediumspeed Holeby GenSet engines and offers the opportunity for live training on our test engines combined with theory.

The academy offers modernized facilities, and is the only PrimeServ Academy, which offers training on an operational MAN GenSet. Our courses are a combination of theoretical sessions and practical hands on work.

Furthermore, we offer an extensive advance course with a duration of 10 days. On request, we can send you a proposal for a detailed course program specially tailored to your needs.

Medium speed four-stroke:

- L23/30H, VL28/32H
- L16/24, L21/31, L27/38
- SaCoSone GenSet
- Dual-fuel

MAN PrimeServ Academy Copenhagen Low speed two-stroke

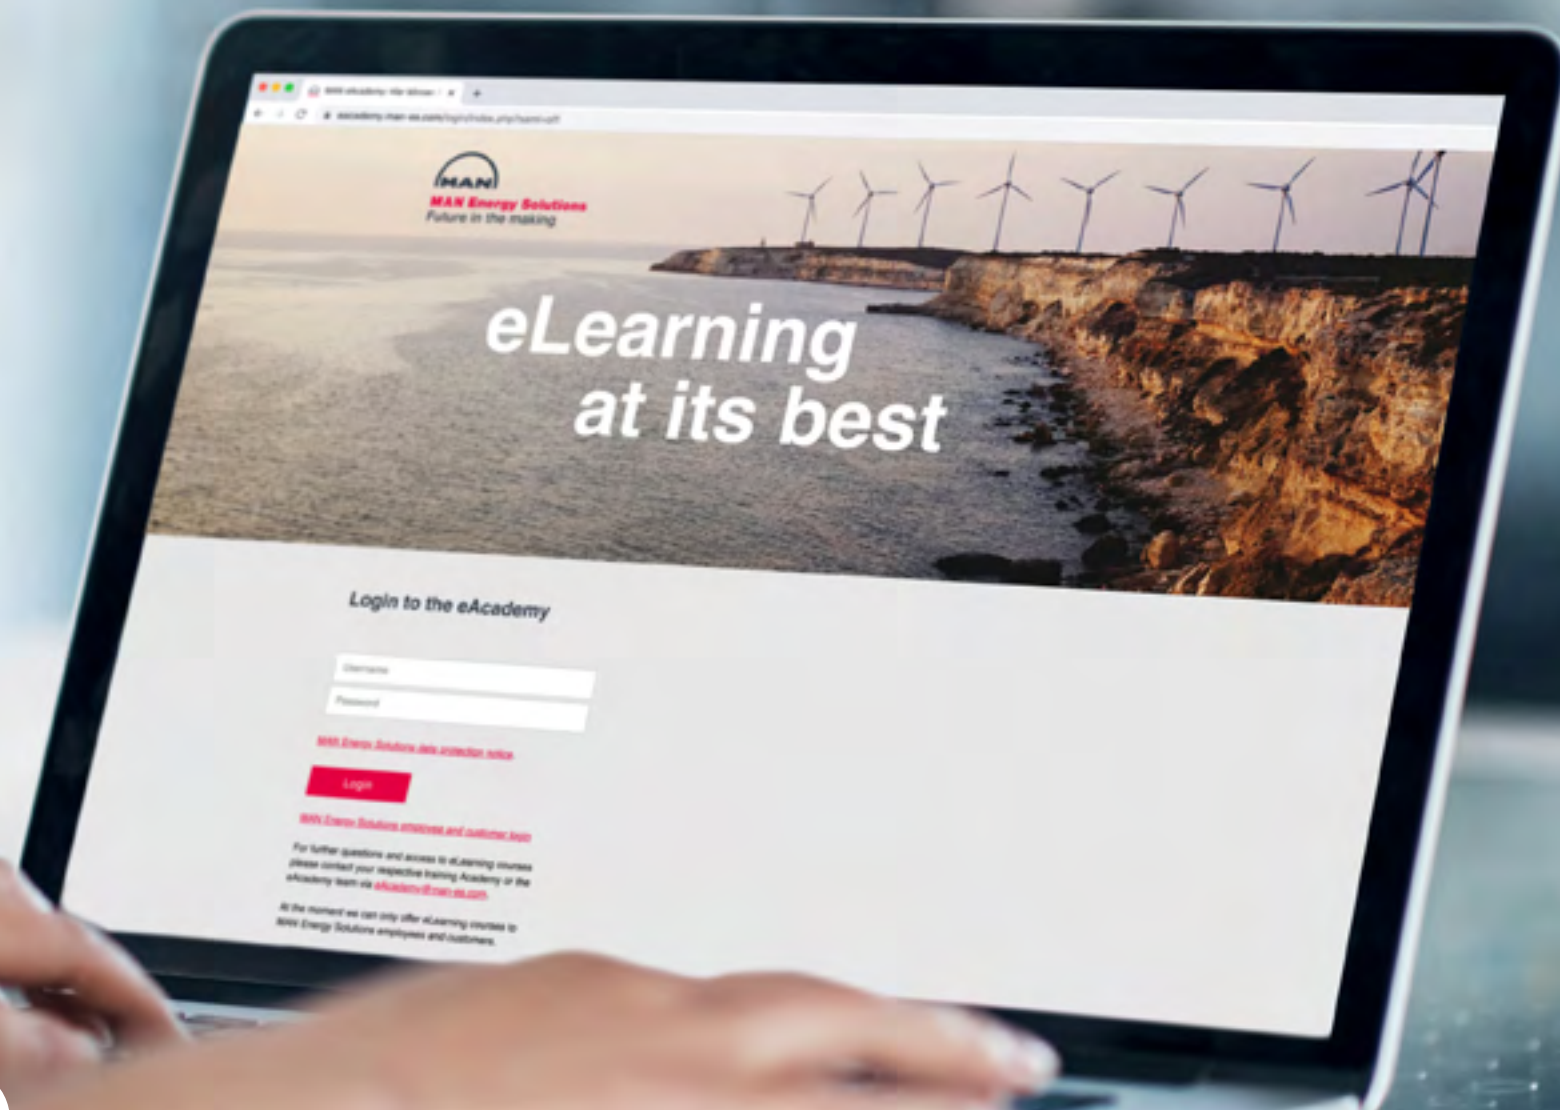

Our academy is located next to the two-stroke engine head office, which allows us to develop and maintain the course material in close cooperation with our R&D department, engine operation specialists and test engineers. Therefore, our instructors have extensive knowledge and experience with all our two-stroke products.

The academy is equipped with a full-size 6S35MC and a MAN 175D engine which both are equipped with used parts in different wear patterns in order to give the most realistic training sessions possible for our participants. High technology training simulators are used for our electronically controlled engines ME-C, ME-B, ME-GI, and ME-LGIM. Additionally available are a maneuvering system simulator, Alpha Lubricator simulator, Rot Comp simulator, ME-C advanced troubleshooting equipment covering HPS and HCU tachometer, and a two-stroke emission technology simulator.

Low speed two-stroke:

- ME-C/ ME-B / ME-GI/ ME-LGIM control system standard operation
- ME-C & MC engine standard optimization
- Two-stroke emission technology
- ME-C & MC engine practical maintenance
- ME-C advanced troubleshooting
- High-speed four-stroke 175D

Keep everyone learning **eLearning**

Our mission is to supply the best quality education solutions and products to our customers around the globe – therefore it is essential for us to keep developing our MAN PrimeServ training portfolio. In times of digitization eLearning is needed to complement the MAN PrimeServ Academy course offers. As such, our eAcademy is under continuous development.

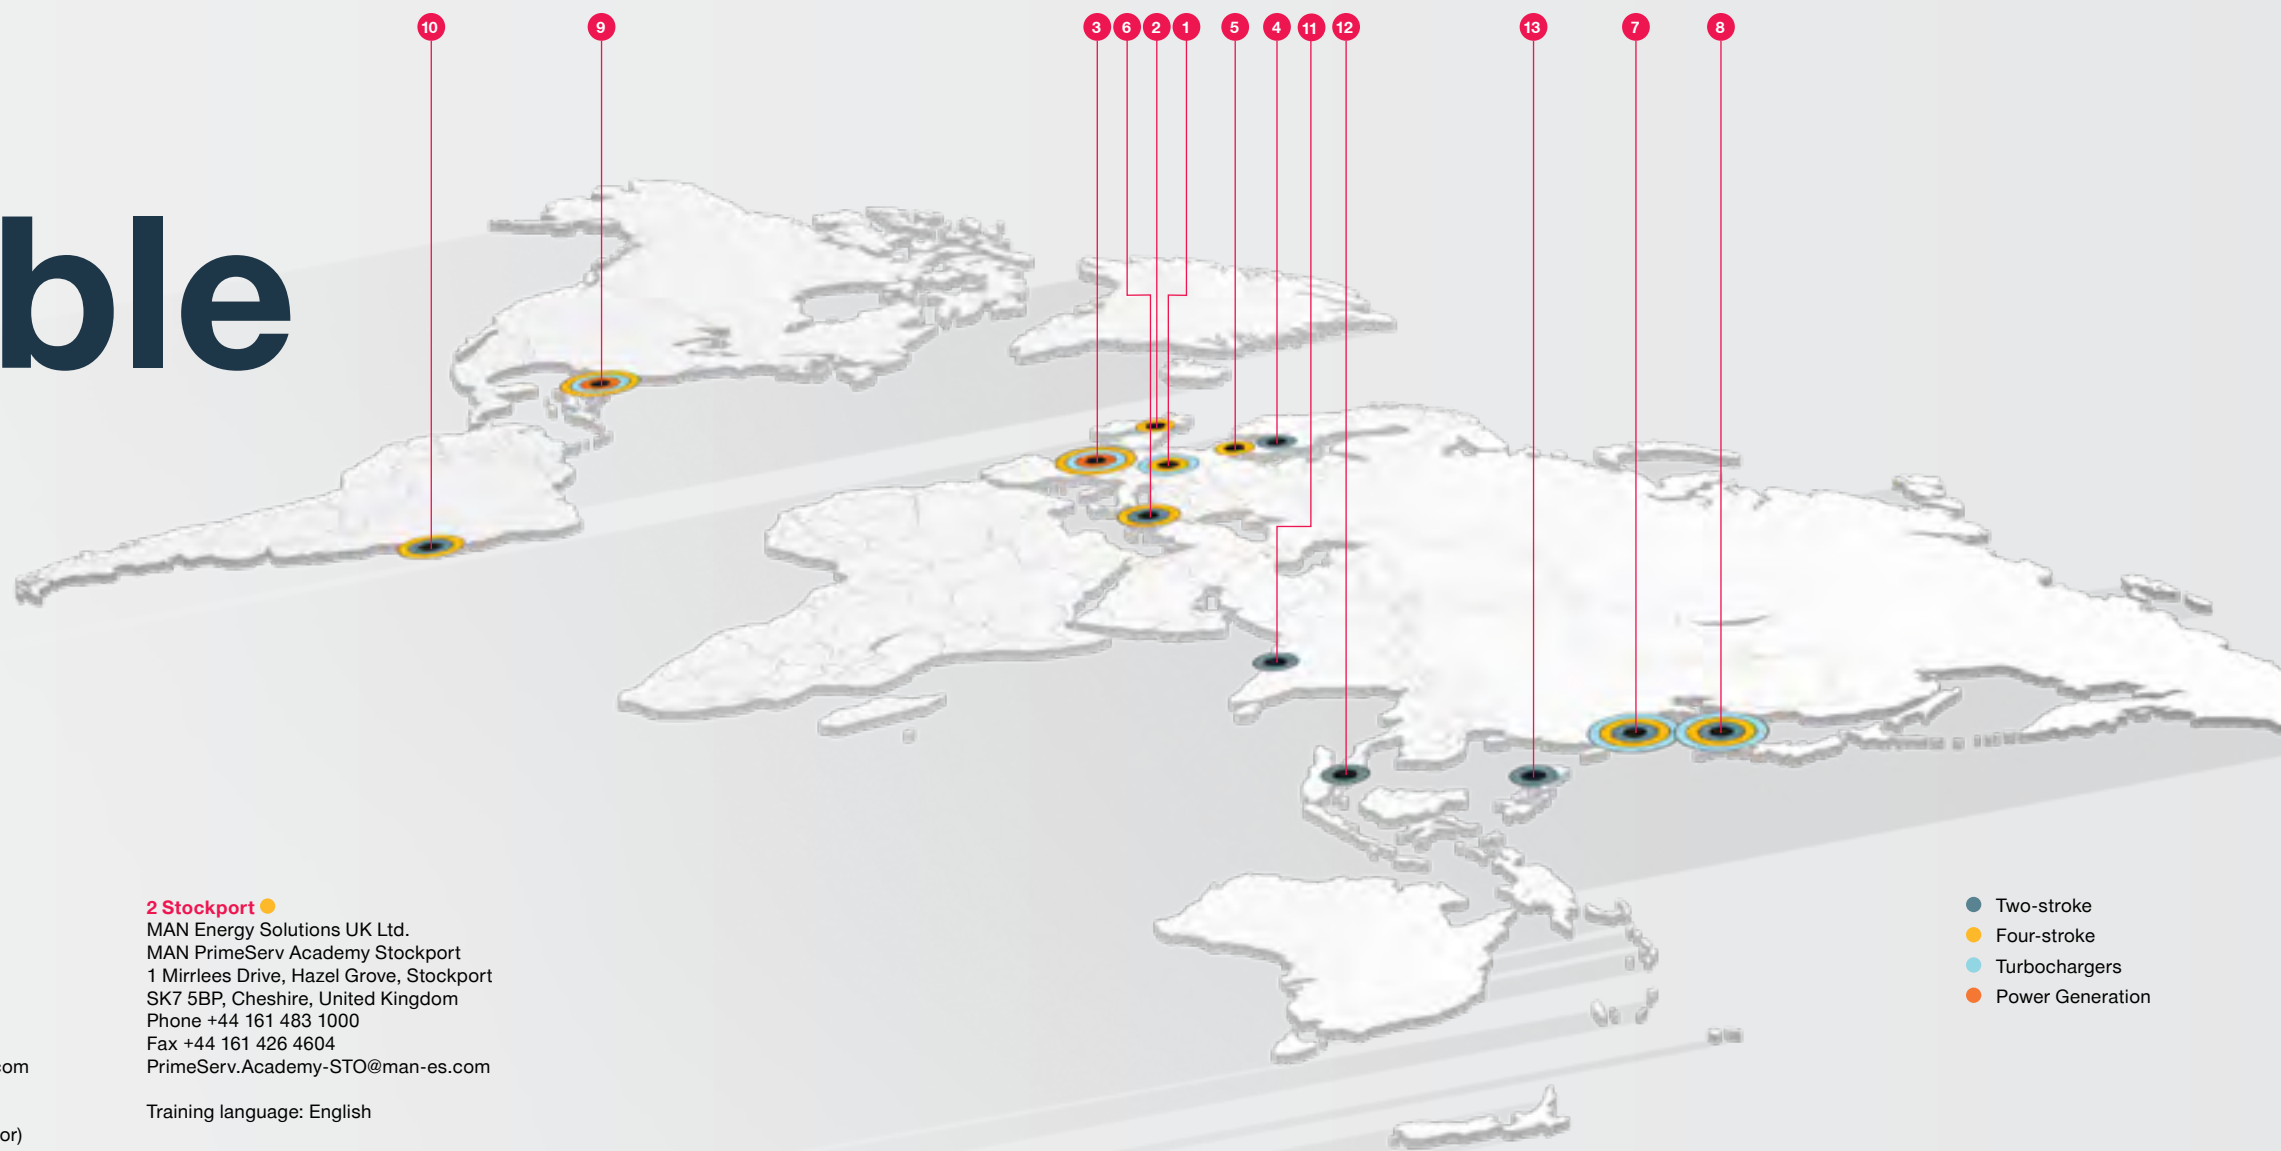

eLearning is...

- Flexible
- Self-paced
- Interactive
- Available any time, any place
- Online via our eAcademy
- Offline on board via our eAcademy App
- Fun to learn
- Sustainable

Directly try out our interesting courses

- Engine fluids
- Alpha lubricator
- Common rail
- Variable Valve Timing
- SaCoSone
- Charging and testing accumulators
- Etc.

What's available where?

This overview shows which academies provide training for your engine or equipment. We can also arrange special customized courses at your request. However, costs may be higher due to the hardware required to conduct certain courses.

Please check our online listing for current course availability:
