Who we can help

On-site Recovery supports the following industries with on-site assessments, advice and problem-solving action:

Marine

Vessel engines of all types, sizes from any manufacturer.

Power & processing

Power plants and industrial processing plants of any type in any location.

Wind

Up-tower repairs of wind turbines offshore or onshore.

Feeling the pain of unplanned downtime?

On-site Recovery

The longer the downtime, the greater the loss. Accelerate your recovery process with in-situ machining from MAN PrimeServ.

Whether you operate vessels, a wind farm, or a power or processing plant, unplanned downtime is probably the biggest threat to profitable operations. And no matter how hard we all work to prevent a critical breakdown, breakdowns do happen.

That's where MAN PrimeServ's On-site Recovery team comes in. Armed with specialized machining equipment for any engine size, our team of experienced recovery engineers is standing by to get you back in operation quickly – across the globe, 24 hours a day, 365 days a year.

When your recovery project is too urgent for time-consuming repairs in a workshop, On-site Recovery is the answer. We bring the tools and manpower to you, solving problems of any scale, even against serious odds, and putting your assets and teams back to work. On time, on spec, and meeting all applicable certifications.

You say impossible? We say just try us. We're On-site Recovery, from MAN PrimeServ.
