

Technical competence

MAN PrimeServ

You're in expert hands

MAN PrimeServ

MAN PrimeServ is the after-sales brand of MAN Energy Solutions. We are fully committed to delivering the best possible support to your business. In other words: to deliver "Service with passion". Focusing on your needs we ensure that you benefit from the MAN Energy Solution products you trust.

Decades of expertise

Performance and reliability are paramount to your business. MAN PrimeServ's technical competence and OEM expertise ensure that you achieve the best results. Backed by decades of experience, MAN PrimeServ combines the latest in technical innovation with a solution-oriented approach. Expertise of this caliber makes MAN PrimeServ the ideal partner for all on-site, remote or bespoke solutions.

State-of-the-art technology

MAN PrimeServ has a strong background in innovation, combining the latest technologies into optimal service solutions. The exciting benefits of digitalization enable worldwide provision of real-time customer service. On the ball, on time and on the job 24/7, highly skilled experts are able to meet your service needs to the full.

Solutions that fit

It's your situation and no one else's that counts. Understanding your requirements ensures the most effective service possible. Listening to your cues, studying your business, MAN PrimeServ provides effective, innovative and performance-focused solutions that fit to your individual needs.

Flexible, customer-focused approach

As an OEM, MAN PrimeServ is best-placed to provide you with follow-up service, whatever your industry. Adapting its solutions to your individual business needs, MAN PrimeServ's 'one face to the customer' approach underlines this relationship based on trust and expertise. In addition, its network of academies can train your employees in the most advanced industry standards, further enhancing the customer-provider bond.

The way forward is digital

Ensuring the efficiency of your operations, MAN Energy Solutions harnesses cutting-edge technology and the benefits of digitalization. Services such as real-time support, remote monitoring and analysis and online training optimize machine reliability and efficiency and reduce downtime. Enhanced monitoring and machine analytics, new standards in security and data privacy and industry-wide information exchange platforms are pointing the way to a brighter, digital-led future for your business.
